Qube awarded Chevron port logistics contract

qube.com.au

Qube Holdings Limited (Qube) today announced its Ports & Bulk division had been awarded a port logistics services contract by Chevron Australia.

Qube will be providing a range of integrated port logistics services through its existing operations at the Port of Fremantle multi-user terminal. The primary tasks will be loading and unloading of freight moving between Fremantle and Chevron-operated assets on Barrow Island, located approximately 60 kilometres off the North West coast of Australia.

The contract is consistent with Qube's strategy of increasing exposure to the oil and gas sector and is expected to contribute to Group earnings growth in FY 2014 and beyond.

Qube anticipates commencing work in the last week of September and plans to service the contract using existing resources at the Company's operations in Fremantle.

A spokesperson for Qube said the Company was delighted to be working with Chevron Australia. In winning this contract, Qube continues to cement its reputation as Australia's leading supplier of integrated port and logistics services.
