## VERSION CONTROL

---

Reference	Reason	Date
DRAFT	Initial creation	01/09/2021
1.0	Published	29/09/2021
2.0	Update to contacts and references	10/02/2023

## 1. PURPOSE

---

Qube Logistics (Rail) Pty Ltd (QLRS) holds Environment Protection Licence (EPL) 21361 with the NSW Environment Protection Authority (EPA) for ‘*Rolling Stock Operated on a Licensed Rail Network*’. As per the *Protection of the Environment Operations Act 1997* (the POEO Act), the holder of an EPL must prepare, keep, test and implement a Pollution Incident Response Management Plan (PIRMP) that complies with Part 5.7A of the POEO Act in relation to the activity to which the licence relates.

## 2. OBJECTIVES

---

The objectives of the PIRMP are to:

- Ensure timely and comprehensive communication of a pollution incident, to the Network Manager/s, community and relevant authorities.
- Ensure that the PIRMP:
  - identifies persons responsible for implementing it,
  - is properly implemented by trained staff, and
  - is regularly tested for accuracy, currency and suitability.

## 3. SCOPE

---

This management plan applies to all QLRS ‘*Railway activities – rollingstock stock operations*’ for *Rolling Stock Operated on a Licensed Rail Network* in NSW. This includes revenue and non-revenue services and fuelling operations. It does not cover activities undertaken at private facilities that are not located on a licensed rail network. Where a pollution incident occurs on a private network, the incident reporting and response/environmental management detailed in the relevant SIA will be implemented.

## 4. GLOSSARY

---

Term	Definition
Act	Protection of the Environment Operations Act 1997
ARTC	Australian Rail Track Corporation
CSC	QLRS Customer Service Centre
CRN	Country Regional Network
Emergency Services	Includes Fire, Fire and Rescue, Police, Ambulance Services
EPA	NSW Environment Protection Authority
EPL	Environment Protection License
PIRMP	Pollution Incident Response Management Plan
PPE	Personal Protective Equipment
QLRS	Qube Logistics (Rail) Pty Ltd
Qube	Qube Holdings Pty Ltd
SIA	Safety Interface Agreement

## 5. ENVIRONMENTAL PROTECTION LICENCE DETAILS

Criteria	Details
Licensee	Qube Logistics (Rail) Pty Ltd
EPL Number	21361
Anniversary date	5 <sup>th</sup> August
Premises	Rollingstock operations on a licensed network
Contact details	Stuart Hudd National Safety Health and Sustainability Manager, Rail & Agri ██████████ – all hours Stuart.Hudd@qube.com.au
Website	<a href="http://www.qube.com.au">www.qube.com.au</a>
Scheduled activity	Railway activities – rolling stock operations

## 6. RELATED DOCUMENTS

This PIRMP has been developed utilising the NSW EPA Guidelines: Pollution Incident Response Management Plans ref; 2020P2147.

This PIRMP also supports the following Qube documents

- MP-001 Rail Safety Management Plan
- SHSMS-QH-06-PR-012 Risk Management
- MP-005 Emergency and Incident Management Plan
- SHSMS-QL-01-SD-0009 Safety Health and Environment Management System
- MP-011 Environmental Management Plan Rail
- SHSMS-QH-06-PR-012 Workplace Risk Management
- SHSMS-QH-13-PR-041 Incident Reporting and Management
- Track Access Agreements
- Safety Interface Agreements

## 7. POLLUTION INCIDENT AND MATERIAL HARM DEFINITIONS

A pollution incident is defined by the Act as-

*An incident or set of circumstances during or as a consequence of which there is or is likely to be a leak, spill or other escape or deposit of a substance, as a result of which pollution has occurred, is occurring or is likely to occur. It includes an incident or set of circumstances in which a substance has been placed or disposed of on premises, but it does not include an incident or set of circumstances involving only the emission of any noise.*

Material harm is defined as-

- (a) (i) *It (the incident) involves actual or potential harm to the health or safety of human beings or to ecosystems that is not trivial, or*

- (ii) It (the incident) results in actual or potential loss or property damage of an amount, or amounts in aggregate, exceeding \$10,000 (or such other amount as is prescribed by the regulations) and,*
- (b) loss includes the reasonable costs and expenses that would be incurred in taking all reasonable and practicable measures to prevent, mitigate or make good harm to the environment.'*

The Act requires Notification of relevant authorities if a pollution incident causes or threatens to cause material harm.

## **8. NOTIFICATION INFORMATION**

---

### **QLRS CSC 1800 724 502**

Where it is known that information is to be provided to the QLRS CSC, the following information is to be conveyed as soon as it is practicable:

- Date and time of the incident (24 hour clock)
- Location of incident
- Nature of incident
- Duration of incident
- Estimation of volume of loss (current)
- Potential for further loss of volume
- Potential for extended impact
  - Waterways
  - Stormwater system
  - Housing/communities/schools
- Actions completed to control the incident
- Train Control notification time

Information that is provided must be as factual as possible, if unknown state it is unknown. On site personnel are not to place themselves or other persons in a position of danger to gain this information.

## **9. NOTIFICATION COMMUNICATION REQUIREMENTS**

---

If a pollution incident has occurred, or has the potential to occur, to the extent that material harm to the environment is caused or threatened, QLRS must immediately implement the PIRMP (the plan).

The plan will, in general, be initiated by train crew notifying the QLRS Customer Service Centre (CSC). The CSC will inform QLRS internal and external agencies as detailed in QLRS MP-005 Emergency and Incident Management Plan.

## 10. PIRMP ACTIVATION AUTHORISED PERSONS

The following persons are authorised to activate the PIRMP and complete notification of a pollution incident to regulatory authorities.

Delegation	Position	Name	Phone contact	Email
1	National Safety Health and Sustainability Manager, Rail & Agri	Stuart Hudd		<a href="mailto:Stuart.Hudd@qube.com.au">Stuart.Hudd@qube.com.au</a>
2	Safety Health and Sustainability Compliance Officer	Jasmine Lee-Borg		<a href="mailto:Jasmine.Lee-Borg@qube.com.au">Jasmine.Lee-Borg@qube.com.au</a>
3	National Operations Manager Rail	Steve Ellem		<a href="mailto:Steve.Ellem@qube.com.au">Steve.Ellem@qube.com.au</a>
4	Safety Manager Rail	Corey Piccirillo		<a href="mailto:Corey.Piccirillo@qube.com.au">Corey.Piccirillo@qube.com.au</a>

## 11. REGULATORY CONTACTS

The below authorities are required to be contacted in the event of a pollution incident.

Priority	Authority	Contact details	Other details/information
1	Rail Network Control	Refer table in Section 12	
2	Emergency Services	000	Emergency use only
3	NSW EPA	131 555	24x7 for pollution incident reports
4	Public Health Unit	Refer to Appendix 3	Ask for the Public Health Officer on call
5	Work Cover	13 10 50	Select incident notification
6	Local Council	Refer to Appendix 4	

## 12. NETWORK MANAGER CONTACTS

QLRS operates over multiple rail networks. Response to incidents is to be coordinated with the Network Manager. The Network Manager affected by the pollution incident is to be contacted and informed of the pollution incident.

Network Manager	Contact Location	Operational area	Contact details
ARTC	Network Control Centre North (NCCN) - Broadmeadow	Hunter Valley to Parkes and Gap to Goobang	02 4902 7976
	Network Control Centre South (NCCS) - Junee	<u>North Coast</u> Telarah to Kempsey Kempsey to Brisbane	02 6924 9871 02 6924 9872
		<u>Sydney</u> Port Botany to Enfield Enfield to Flemington and Leightonfield	02 6924 9866 02 6924 9864
		<u>Main South</u> Leightonfield to Berrima Berrima to Harden Harden to Albury	02 6924 9863 02 6924 9867 02 6924 9868
		<u>Illawarra</u> Moss Vale to Unanderra	02 6924 9867
		<u>West</u> Stockinbingal to Broken Hill	02 6924 9861
	Network Control Centre West (NCCW) – Mile End	Broken Hill to NSW/SA Border	08 8231 4506
Country Regional Network (UGL Linx)	Network Control Centre - Mayfield	All areas of CRN operation	02 4028 9541 02 4028 9544
Queensland Rail	Brisbane	All areas of Queensland Rail operation	1300 079 903
Sydney Trains	Rail Operations Centre	All areas of Sydney Trains operation	02 9379 1743
V/Line	Melbourne	Oaklands line Tocumwal line Deniliquin line	1800 023 668
Private networks	Various	Various	Refer to the relevant SIA

### 13. COMMUNITY NOTIFICATION

QLRS operates over multiple rail networks covering an extensive geographical footprint. Each Network Manager is a licensed body under the Act which gives the Manager prime responsibility for managing pollution arising from the rail corridor. QLRS operates over such networks under formal Access Agreements which make these Managers the primary contact point for their adjacent communities.

Due to the nature of operations, limited resources will be available at the scene of the incident (the train crew) initially. Where community notification is required, QLRS will consult with the Network Manager and possibly require the support of Emergency Services.

QLRS will work with the Network Manager to implement its community response protocols, this includes communicating with the community.

### 14. ACTION DURING AND FOLLOWING AN INCIDENT

The management of a pollution incident will be undertaken as described in QLRS MP-005 Emergency and Incident Management Plan.

Incident responses will be developed, agreed and implemented in consultation with the Network Manager, emergency services, internal subject matter experts, third party specialised / subject matter expert advice and regulator/s requirements.

Management phase	Action description
Incident notification	<p>Train crew to notify the Network Controller of the incident occurrence.</p> <p>Train crew to notify the QLRS CSC of the incident occurrence.</p> <p>QLRS CSC to implement internal notification process.</p> <p>QLRS CSC to implement communication process with Network Manager.</p>
Initial on-site response	<p>Train crew to attempt to control incident with available resources – if safe to do so.</p>
Activation	<p>The Safety Health and Sustainability Manager, or delegate, to implement the PIRMP and the Emergency and Incident Management Plan.</p>
Response and recovery	<p>The Safety Health and Sustainability Manager, or delegate, is to organise an Incident Management Team.</p> <p>The Incident Management Team is to develop a response and recovery plan inclusive of consultation with the Network Manager and, where required, emergency services and/or specialised services and other required resources.</p> <p>During the recovery processes, the Incident Management Team is to meet regularly to review progress against planned outcomes and assess risks associated with change requirements.</p> <p>Incident recording, investigation and actions will be recorded within the Qube INX Event database as required by QLRS MP-005 Emergency and Incident Management Plan.</p>
Debrief	<p>Following the recovery process, the Safety Health and Sustainability Manager Rail is to facilitate and document a debrief meeting to identify the following;</p> <ul style="list-style-type: none"> <li>• Processes which worked well</li> <li>• Processes that did not work well</li> <li>• Improvement opportunities</li> </ul>

## **15. ASSESSMENT OF ENVIRONMENTAL RISKS**

---

QLRS has reviewed its rail operations to identify hazards to the environment. The QLRS Environmental Risk Assessment considers the consequence and likelihood of an environmental incident and the control/s necessary to prevent or mitigate that risk.

The Environmental Risk Assessment supports the QLRS MP-011 Environmental Management Plan.

## **16. SAFETY EQUIPMENT**

---

QLRS has equipped locomotives with the equipment to manage and control minor spills; this includes specific PPE for train crews. Where a larger incident occurs, controls to manage this occurrence will be implemented utilising emergency services and/or licensed waste contractor services.

## **17. TRAINING IN THE PIRMP**

---

The PIRMP will be communicated to required QLRS personnel, as identified in the QLRS Training Matrix. Training outcomes are documented in the Qube Transport Management System Learning Management System.

## **18. TESTING OF THE PIRMP**

---

The PIRMP will be tested on an annual basis and within one month of a pollution incident, including a near miss pollution incident. The testing methods will be either a desk top assessment or in field simulation or a combination of both and where possible will include representation from the Network Manager and Emergency Services. The testing will reflect the following;

- The nature of activities undertaken by QLRS
- Environmental context
  - Sensitive/protected land areas and associated habitat
  - Sensitive/protected waterways and associated habitat
  - Community
  - Air quality

The results of the testing of the PIRMP will be communicated to (at a minimum) the following positions within Qube;

- General Manager Rail and Agri, Qube Logistics
- General Manager Safety, Health and Sustainability, Qube Logistics
- Director People Culture and Safety, Qube Holdings

## **19. REPORTING**

---

As a holder of a NSW EPA license, QLRS is required to report on its compliance with the PIRMP obligations in its Annual Return. The Annual Return requires the licensee to confirm that the PIRMP;

- Has been prepared as required under the legislation
- Is available at the premises

- Is available on a publicly accessible website and the details of the website
- Has been tested in the previous 12 months and the date of the last test
- Has been updated and the date of the last update.

## 20. INVENTORY OF POLLUTANTS

---

QLRS trains are worked by one or more diesel electric locomotives. Each locomotive conveys up to 8500 litres of diesel fuel, 1600 litres of engine oil and varying amounts of treated engine coolant.

As a logistics company QLRS conveys a wide variety of materials in its trains. These include:

- Steel products
- Bulk grain in wagons of up to 67t capacity
- Containerised grain in containers of up to 27t capacity
- Containerised ore in containers up to 27t capacity
- ISO Shipping containers with varying cargoes
- Powdered cement

## 21. APPENDIX TABLE

---

Appendix number	Document number	Document name
1	FM-839	Pollution Authority Notification
2	PHU-contact referral list	NSW Public Health Unit contacts
3	NSW Council contacts	NSW Council contacts
4	FM-840	PIRMP Test template
5	MP-008	PIRMP Update register
