SAFETY, HEALTH AND SUSTAINABILITY

We are committed to constantly challenging our Safety, Health and Sustainability performance. We encourage healthy living, promote strong community connections and minimise our impact to the environments in which we operate. Our values and strategies integrate our commitment to Zero Harm to deliver long-term sustainability and create value for all stakeholders.

We have a strong team of people who work together to create an inclusive and collaborative safety culture. This creates the opportunity to identify and mitigate risk, develop and innovate solutions and share our knowledge with industry.

VISION Our ambition.	Be the best at what we do.		
STRATEGY Our focus.	Be the leading integrated logistics provider. for import, export and domestic supply chains in Australasia and select international locations.		
PURPOSE Why we get out of bed.	Helping our customers, communities and industries to thrive.		
PRIORITIES What supports achieving our purpose.	Our people to thrive.	Our customers to thrive.	Our planet to thrive.
	Our shareholders and stakeholders to thrive.	Our business to thrive.	
	Safety We believe our team should go home unharmed.	Wellbeing We believe all deserve to be their best self.	Planet We believe in supporting the planet that supports us all.
	Opportunity We believe in opportunities for our team and customers.	Performance We strive for success for all.	
VALUES What matters to us.	Integrity.	Reliability.	Inclusion.
PERSONALITY Who we are.	Assured.	Can-do.	Curious.
PROMISE What we stand for.	What matters to you matters to us.		

ZERO HARM

Qube's goal is to ensure a "Zero Harm" safety culture, which reflects our belief in a workplace where risks are managed, and the work does not impact on our people's health and well-being. Our safety systems are closely monitored, and we actively participate in programs that create an inclusive and transparent culture which results in minimised SHS incidents and an engaged and productive workforce.
